WELCOME TO MULTIMARINE

Multimarine Shipyards offers one-stop-shop solution for Superyacht Shipyard Services, Yacht Agency Services and Afloat Repairs in the vibrant Mediterranean Port of Limassol, Cyprus.

We offer our clients more than 40 years of experience, with several challenging and successful projects for vessel and yacht repairs under our portfolio: from Hull Treatment, Topside Painting, Engineering & Propulsion to Decking, Flooring, Glazing, Water treatment and Diving Support Services... to Yacht Agency services, Multimarine is your ideal service partner in Cyprus!

Our Shipyard facilities in Cyprus also include the VIKING Lifteraft Service Station, a Marine Fire Service Station, the Drager Safety Equipment Service Station, the ABB Turbocharging Service Station and an Independent Calibrations and Testing Laboratory.

We also offer a state-of-art Warehousing and Logistics Centre for short and long term storage of yacht tenders and spares.

INFRASTRUCTURE & FACILITIES

Multimarine Shipyards operates Super Yacht Drydocking facilities in Limassol Port, Cyprus. The Floating Dock ERENEOS with an overall length of 120.00m and width of 32.40m is a pioneer project for the Cyprus Yacht Repairing Industry and allows Multimarine to offer a fully comprehensive service to our numerous Local and International Yachting Clients.

Multimarine's experience and accreditation in the field of Ship Repairs provides a comparative advantage when it comes to completing Super Yacht drydocking operations in Cyprus.

Multimarine's Shipyard is equipped to provide the following services:

- Floating Dock with overall length 120.0m and Clear Width 27.0m
- Provision of all necessary resources to complete the Dry-Dock Works
- Project management of the drydocking workscope
- Provision of Comprehensive Reporting
- Liaison with all interested parties

Our infrastructure in Limassol Port include three (3) workshops fully equipped to facilitate the following type of repairs:

- Fabrication and Welding Shop
- Machine Shop
- Electrical Shop
- Carpentry Shop
- Blasting and Painting

AGENCY SERVICES

Our Yacht Agency Service provides 24/7 support and acts as your protective agents for all Super Yachts calling at Limassol Port, Larnaca Port and all Marinas of Cyprus.

Multimarine Shipyards' extended network across Cyprus along with its experienced team of yacht agents, can efficiently address any query that may arise at shore, at berth or at anchor.

Our Yacht Agency services include but not limited to:

- Berth Arrangements
- Customs Clearance
- Crew Change
- Freight Forwarding
- Arrival and Departure clearance
- Duty Free Bunkering
- Provisions/ Sourcing for Spare Parts and Supplies
- Maintenance and Repairs
- Concierge Services

Every service provided by our Yacht Agents is designed to efficiently support our clients by minimizing the risk, the timing and the cost of operations.

SHIPYARD SERVICES

CONVERSIONS INTO SUPPORTING YACHTS

At Multimarine Shipyards, we specialize in converting ex-OSV/PSV vessels into supporting yachts according to the client's requirements.

TENDERS STORAGE & REPAIRS

Our team of experts can provide the following services to your tenders:

- Tenders safe storage
- Teak repairs
- Engine repairs
- Shrink wrap cover and painting

HULL TREATMENT

We liaise with the Owner's Management side and technical superintendent and in collaboration with Makers such as International, Boero, Awlgrip and Jotun.

- Development of Methodology
- Material Procurement and Specification
- Topsides protection: shrink-wrap cover or tent

- Surface preparations: Ultra High Pressure washing, High Pressure washing, sandblasting, spot blasting, and off-hand grinding
- Painting: by rollers or as per the agreed Methodology
- Anodes protection and replacement

TOPSIDES PAINTING

Multimarine collaborates with renowned specialists from Europe to perform the topside painting.

Prior to commencing the work, Multimarine is procuring the paints and then we are erecting a scaffolding (with own materials and in-house teams) and covering it with a shrink-wrap tent to create a secluded dust-free environment.

- Highly experienced and efficient personnel
- Top-quality paints
- Development of Methodology
- Material Procurement and Specification

ENGINEERING

Our very experienced teams of engineers, mechanics and electricians are performing repairs and overhauling services on main engines, thrusters, generators, pumps, sea valves and many more.

Multimarine is in close collaboration with major Makers such as CAT, MTU, ABB and Wartsila.

- Main / Auxiliary Engines overhaul and repair
- Thruster Overhauling & Repairs
- Cylinder heads, pistons, cylinder liners and injection pumps repair
- Generators overhaul
- Pumps overhaul and repair
- Alternators service
- A/C system service
- Windlasses and winches overhaul and repair
- Sea and overboard valves overhaul and repair
- Anchors ranging, HP washing, painting, calibrating and reporting
- General fabrications and welding by ABS & DNV approved welders; welding applicable to all types of metal

PROPULSION

Multimarine is offering the highest engineering standards in servicing and repairing propulsion systems.

Our in-house teams of engineers and mechanics have successfully completed many projects over the last few years, working along major Makers such as:

KONGSBERG, BERG and SCHOTTEL.

- Thrusters overhaul and repairs
- Tail shafts and propellers machining and repairs
- Propellers polishing and dye-check

FLOORING

We supply and install new PVC and carpet flooring in all kinds of yachts.

- On-site inspection and measurements
- Removal and disposal of existing flooring
- Installation of new IMO approved flooring

DECKING

Teak replacement is a quite detailed and highly specialized task. The aesthetic excellence and quality of the joints are key for a successful installation. To replace damaged or worn areas, we utilize premium quality teak planks procured from Belgium and synthetic teak from the Netherlands.

When needed, we may also travel to inspect and quote for teak and synthetic teak replacement and re-caulking, anywhere in the Mediterranean region.

- On-site inspection
- Teak replacement
- Synthetic teak replacement
- Caulking repairs
- Sanding

GLAZING

- On-site measurements, drawings and formwork creation
- Receiving offers from our network of esteemed associates in Europe for the supply of new glazing
- Removal of the old frames and installation of the new ones

Furthermore, we produce drawings for Class Approval.

WATER TRETAMENT & TANK CLEANING

Offered Services:

- Tank cleaning and painting
- Reverse osmosis system service and preservation
- Desalination
- HiFog System service
- Waste & sewage treatment and disposal
- Fresh water pumps service
- Sewage Pumps service

YACHT SUPPLIES
